Ideal Reversible Rug Adjuster.

IDEAL
REVERSIBLE
RUG ADJUSTER
PAT. PENDING.
CAN BE USED ON THE CORNERS OR SIDES OF RUGS BY SIMPLY TURNING THE STEEL AROUND
THE RUBBER PREVENTS SLIPPING.

As it appears on the corner of a rug.

As it appears on the side of a rug.

Per gross, $30.00.

By the use of this device rug need not be fastened to the floor to prevent it from curling at the corners or slipping.

Invisible when in use. The steel spring, in combination with the tread, prevents the corners from curling, and by reversing, the steel can be applied to the side of rug with equal results. The rubber grips the slippery floor with great tenacity. Especially valuable on Oriental Rugs, corners of which invariably curl.
